

Universal anticorrosion product

FAM V-90[®]

FAM V-90[®] is universal and efficient product for anticorrosion protection and water displacement.

ADVANTAGES

- It penetrates excellently and loosens rust-frost joints.
- It easily displaces moisture from critical points.
- Excellent anticorrosion protection.
- Protection from oxidation and moisture in electro-contacts.
- After solvent evaporation, there is thin oily protective film on the surface.

QUALITY LEVEL

ISO-L-REE

APPLICATION

FAM V-90[®] has wide application:

- Automobiles: it displaces water and protects from oxidation all electro-contacts, it lubricates all movable parts (assemblies, hinges, locks)
- Garden equipment: it cleans the residues, displaces water, protects from corrosion and lubricates
- Workshop: handy multipurpose product
- Industry: protection and lubrication of mass production fine parts
- Household: lubrication of household appliances, hinges etc.

FAM V-90[®] is applied to clean and dry surfaces by spraying or immersion.

TYPICAL CHARACTERISTICS

	UNITS	FAM V-90 [®]	METHODS
Density at 20°C	g/ml	0,770-0.820	SRPS EN ISO 3675
Flash point	°C	min. 38	SRPS EN ISO 2719
Ford viscosity at 20°C	s	9-16	ISO 2431
Protective film thickness	µm	Min.4	MIL C 16173 D

NOTES FOR SAFETY AT WORK

- The product must not be applied to heated surfaces and near the open flame.
- During application, take measures for protecting respiratory tract, eyes and hands.

STORAGE

Store in confined space intended for the storage of flammable materials. Tightly closed containers should be protected against direct sunlight and other heat sources. All necessary instructions can be found in the Safety Data Sheet. It contains details of possible hazards, warnings and first aid measures, as well as the environmental impact and the necessary measures when storing.
